

Denis Friendship Bench #lovelikedenis #loyalfriend #trustedfriend

When it comes to friendship, loyalty is key. We are launching an initiative to provide a “**Denis Friendship Bench**” to universities and high schools where friends can sit and spend time together where they can build a real friendship connection. Denis was always available to friends and strangers alike to talk and share in a meaningful way the things going on in their lives.

Denis epitomized love and loyalty in everyone who cross his path.

Tragically, his life was taken away from lack of loyalty, compaction, and most of all from a person who Denis considered his best friend. When Denis needed a true friend, this person failed him in every possible way. By Denis’s story and this friendship bench we hope we can bring awareness and what happened to Denis the night he was murdered, it will teach and encourage young people to think more deeply about what true friendship is all about, and teach young generation how to save a life when needed.
